US EPA RECORDS CENTER REGION 5

REFERENCE: Kent County Refuse Disposal System  
Ten Mile Road Landfill

Dear Mr. Heyt:

As you know, the County is currently contracting with Plummer's Septic Tank, Inc. for the hauling of leachate from the Ten Mile Road Landfill to a sanitary sewer just south of Rockford. Currently, the County is in the process of purchasing a vehicle of its own to transport leachate in the same manner. At the present time, our leachate trucking operation is intended to be an interim solution and will be re-evaluated from time to time depending on the flow of leachate. Also, the County is investigating various avenues to install a sanitary sewer from the landfill to the North Kent System.

This letter should be considered the County's written contingency plan as required in Item 6 of the Agreement dated February 28th, 1979.

Sincerely,

KENT COUNTY DEPARTMENT OF PUBLIC WORKS

Curt A. Kemppainen  
Civil Engineer
